

David A. Nedelcov

(475)-298-5070 | dnedelcov3@gatech.edu | Atlanta, GA | [linkedin.com/in/david-nedelcov-595204285](https://www.linkedin.com/in/david-nedelcov-595204285)

EDUCATION

Georgia Institute of Technology

Expected Graduation May 2027

Bachelor of Science in **Biomedical Engineering**, GPA 3.67 | Faculty Honors

Atlanta, GA

- Study Abroad at **Oxford University & Galway University**
- Relevant coursework: Fundamentals of Medical Device Development, Biotransport, Biomechanics, Computational Biomaterials and Tissue Mechanics, Physiology, Biomedical Systems & Modeling, Biomedical Engineering Design.

EXPERIENCE

Undergraduate Biomechanics Research Assistant

August 2024 - Present

Exoskeleton Prosthesis Intelligent Controls (EPIC) Lab VIP | GeorgiaTech

Atlanta, GA

- Reviewed and tested VICON data collection for research that targets Mocap pipeline semi-automation
- Analyzed the impact of manual labor on joint biomechanics and load distribution using MATLAB
- Enhanced mechatronics systems for improved design functionality

Research Assistant

August 2025 - Present

Meaud Lab | GeorgiaTech

Atlanta, GA

- Explored cochlear mechanics of the mammalian inner ear using computational modelling
- Developed a MATLAB postprocessing tool that transformed complex cochlear micromechanics simulations into interpretable visual analyses.
- Worked directly with Prof. Julien Meaud, PhD, to refine cochlear simulations and improve analysis of model outputs.

Teaching Assistant for Biotransport

August 2026 - Present

Wallace H. Coulter Department of Biomedical Engineering | GeorgiaTech

Atlanta, GA

- Guide student teams in applying conservation principles, dimensional analysis, and computational methods to biomedical problems.
- Explain fluid, heat, and mass transport concepts during collaborative studio activities.
- Provide real-time feedback, clarify technical concepts, and troubleshoot quantitative calculations.

Teaching Assistant for Statics

August 2025 - May 2026

Tutoring and Academic Success Center | GeorgiaTech

Atlanta, GA

- Applied strong analytical skills to guide students through challenging equilibrium and force problems
- Led Statics review sessions, strengthening students analytical and reasoning skills
- Demonstrated strong communication and coaching skills while supporting course instruction

Business Development Representative and Mentor

July 2023 - August 2024

Upgrade Education | EdTech startup - college admissions and mentorship

Remote

- Persuaded prospective clients to enroll in mentorship programs, exceeding sales targets by an average of 2.3x
- Provided valuable insights to clients about top universities and their admissions process
- Guided students of various backgrounds in crafting strong and successful college applications

SKILLS

Technical : Biomechanics Analysis, Motion Capture & Processing, CAD (SolidWorks certified, Fusion), Data Visualization

Programming : MATLAB, C++, Python, Java

Certifications : CITI Biomedical Research Investigators and Key Personnel, CITI Good Clinical Practice

CAMPUS INVOLVEMENT

Clubs and Organizations : President of Romanian Student Association, Medical Robotics Club, Bioinformatics Club
